Profile

Product Designer with 4+ years of experience designing digital products across fintech, healthtech, SaaS, e-commerce, and enterprise platforms. Experienced in taking products from requirements and user flows through wireframing, high-fidelity UI, prototyping, design systems, implementation, and end-to-end testing. I work closely with product managers, product owners, developers, and stakeholders to turn product requirements into practical, user-focused experiences.

Experience

ChamsAccess — Product Designer

Full-time | Nov 2023 – Present

- Lead end-to-end product design across fintech, HR, e-commerce, security, and pension platforms, from requirements and user flows through high-fidelity UI, prototyping, implementation, and testing.
- Design and improve products, including a pension remittance platform serving 10,000+ customers, 10+ PFAs, and 10+ partners, with ₦300B+ in transaction value.
- Collaborate with product managers, product owners, heads of product, developers, and stakeholders to translate requirements into practical user experiences.
- Conduct design reviews, present design decisions, gather feedback, and work with developers throughout implementation.
- Create test scripts and conduct end-to-end testing of implemented products, identifying issues and verifying screens against approved designs.
- Mentor product design interns and support junior designers.

HealthFusion — Product Designer

Contract | Aug 2024 – Apr 2026

- Led product design as the sole designer across HR, HMO, employee wellness, and admin experiences for a healthcare technology platform.
